Cruise Terminals in India

Mumbai International Cruise Terminal

Presently the BPX berth which is 800 ft long can accommodate vessels of 10.5 mtrs draft and the adjacent berth BPS can handle vessels of draft 9.8 mtrs. For vessel more than 750 ft long the use of BPX and BPS berths is done. The largest ship handled by MbPT till date is the Genting Dream (Length - 335.33m, Beam - 39.7m, Displacement - 72000 tonnes, Passenger Capacity 3352 and Crew of 1992). As this was the longest and largest cruise vessel handled by MbPT. It forms the standard for handling such ships in future.

- Free from all beam restrictions
- Vessels Passengers Capacity – 2000 Nos
- Vessels Handled in 2016-17 – 51 Nos

- Project completion – December, 2019

Mormugao Cruise Terminal

Cruise terminal building of 1650 sq.m. area has been constructed at a cost of Rs 8.50 Crores. Presently the maximum vessel size that can be taken to the cruise berth is 260m in spite of having a berth of 450m as the mooring dolphin of WISL obstructs the vessel movement. It is likely to be removed once the lease gets over in April 2018. Amenities available:

- Car/coach parking facilities
- Customs, security, immigration, baggage handling
- Waiting / departure halls.
- Cafeteria/snack, lounge, duty free shop, business centre, office areas, counter information and hotel and travel reservations etc.
