TRANSLATION (ENGLISH TO HINDI)

Q.1. Translate the following English passage into Hindi.

Thinking of what education might look like in the next decade, one quickly realizes that the trends in technology are leaving a large number of our students behind. Today is an age of exponential change. New and ever-improving technologies are popping up every day and in every corner of society. Educating the best and the brightest in this brave new world will take a new and improved educational paradigm. Allowing our educational tools to age in the corner of the classroom will be the mistake that may cost us our future. Throwing away masses of children to inequitable access will ensure that we languish at the bottom of the global pool of employable workers for decades to come. Technology will shape the way we educate students in the next decade.
