1. Background

Mumbai Port Authority (MbPA) is a port which lies midway on the West coast of India, on the natural deep-water harbour of Mumbai in Maharashtra. The harbour spread over 400 square kilometres (150 sq mi) is protected by the mainland of Konkan to its east and north and by the island city of Mumbai to its west.

One of the oldest ports in India, Mumbai Port has evolved in keeping with the changing demand and developments. Port's cargo profile has shifted from bulk and break bulk to liquid bulk which is transported through pipelines not adding to the traffic woes of Mumbai city. Following the evolutionary trajectory, Mumbai Port Authority is undertaking initiatives for development of its land in the Wadala, Sewri & Reay road area. The objective is to explore viable development options, attract credible developers, and receive proposals indicating market-driven interest.

28 (A) PGLM Conditions Applicable

Para 11.3(C), 12(E) and 12(J) of PGLM shall also be applicable.

11.3 (C) During the process of renewal of existing/earlier leases, the Port is required to differentiate between those lease-agreements that provide for renewal and those that do not provide for such renewal at the end of the lease-period. In cases of renewal of existing leases, without renewal option at the end of the lease-term, the land will be put to tender-cum-auction with the first right of refusal to be extended to the existing lessee. The existing lessee should be allowed to match the H-1 bid. If any structure has been constructed by the earlier lessee on the leased land, it would be valued by a third party valuer to be agreed upon by the Port Trust and the earlier lessee and the successful bidder has to remit the value of the structures which would be passed on to the previous lessee. The bidding and auction would be only on the reserve price of the land. With a view to dissuade non-serious bids, EMD for a valid bid should be fixed at 10% of the latest SoR of the land being put on tender. If the only bidder is the existing lessee, the annual lease rental would be determined on the basis of the latest SoR notified as per Para 13(c) or the price quoted by the existing lessee in the tender-cum-auction, whichever is higher. The provision of first right will also apply to expired lease (possession has been taken by the Port) also in addition to existing leases

12 (E) Each lease agreement should specifically provide for termination of lease, if the leased land is not utilized for the purpose for which it is allotted, within two years of the allotment, or such shorter period as may be fixed at the time of approval of the lease. However, this period of two years can be extended by the Board maximum upto one more year from the date of physical possession of land in respect of security/ government agencies only. Similarly, each lease agreement should specifically provide for surrender of lease, subject to prior notice by the lessee at least 6 (six) months in advance and refund of proportionate premium if the land was leased on upfront basis. Even in existing leases, in cases of premature surrender of lease, proportionate lease rent premium to be refunded by the Port if the land was leased on Annual lease rent basis.

12 (J) The Port Trust Board shall have the right to resume possession of the leased land in public interest before expiry of lease period. In such cases, subject to availability of land, the lessee may at the discretion of the Port Trust Board be given an option to relocate activities in another suitable location to be offered by the Port, as per the land use plan or refund of proportionate lease rent premium if the land was leased on Annual lease rent basis.
